English Professional
Amharic Native
Tigregna Profetional

Profile

As a Full Stack Developer, I am driven by a passion for building seamless, scalable, and user-centric applications from the ground up. I specialize in both front-end and back-end development, utilizing modern technologies to create full-featured software solutions. With a strong grasp of both UI/UX design and server-side logic, I aim to deliver applications that are not only functional but also efficient, maintainable, and intuitive. My ability to work with a diverse set of technologies—combined with my commitment to continuous learning—enables me to deliver high-quality software solutions that meet client expectations andbusiness needs.

WORK EXPERIENCE(INTERN)

Massive Tech Addis Ababa,Ethiopia

Mar 2024 - Jul 2024

Junior Software Engineer

- Spearheaded the development of full-stack applications using Python, Django, React, GO, and modern web technologies such as Bootstrap, CSS, and JavaScript. Architected scalable back-
- end services and APIs in Django and GO, ensuring smooth data flow and interaction with front- end interfaces. Designed and implemented intuitive, responsive user interfaces with React
- and integrated them with back-end services to deliver seamless user experiences. Collaborated with cross-functional teams to gather system requirements and translate them into actionable
- development tasks. Played an integral role in the entire software development life cycle: from system design and implementation to user testing, deployment, and maintenance. Provided user
- training, gathered feedback, and quickly responded to comments and bugs to improve the overall product experience. Contributed to code reviews and participated in agile
- development processes to ensure the timely delivery of high-quality software.

Skills

- Python, JavaScript, PHP
- React, Bootstrap, JavaScript, jQuery
- Django, GO
- MySQL, PostgreSQL, SQLite
